

Mini-Symposium on Global Child Health

Poster competition

Invite

The Scientific Committee of the **Mini-Symposium on Global Child Health** invites participants, who are interested in sharing their work and ideas on the theme of **paediatric child health**, to submit their work in abstract form. If accepted, the abstracts will be displayed in poster form on a dedicated area of the Symposium venue. The author of the best poster will also have a 5 minute during the afternoon session to present their work in 3 slides.

Changes in abstracts cannot be made after submission.

Please follow the instructions given below and make sure that each of the requirements has been met.

Abstract submission deadline is **Friday 25 March, 2022 at 23:59 GMT**.

Topics

All abstracts should focus on the topic of **Global Child Health** considering one or more of the following areas of interest.

Clinical practices

Infectious Diseases

Vaccination

Health Economics

Public policies

Social Sciences

Patients/families involvement

Ethics

Epidemiology

Healthcare workers' research capacities development

Peer support and mentoring experience in healthcare

Other

General guidelines

We welcome abstracts on all topics of relevance for paediatric research or for clinical practice in neonatology **with a global perspective**. They can include basic science, epidemiology, clinical investigation, trials, organisation of care, quality improvement, and professional training and education.

We will accept all well-written abstracts that have a general interest regarding the topic in question, the methodology, or the results. We welcome abstracts reporting on clinical protocols, ethical or organisational issues, pilot data, quality control, plans for statistical analysis, social science studies, patient involvement and capacity development in healthcare.

The decision on acceptance and the preliminary programme will be made by the scientific committee. Final acceptance will be communicated via email.

The accepted abstracts will be displayed in a dedicated area of the Symposium venue. The author of the best poster will also have a 5 minute during the afternoon session to present their work in 3 slides.

Abstract Structure

Please note that the **abstract** needs to be structured, limited to 350 words, and include the following sections:

1. Background
2. Methods
3. Results
4. Conclusion

1 Table **OR** 1 image is allowed.

Case reports, limited to 350 words, constitute an exception to this, and these should include the following sections:

1. Background
2. Case report
3. Conclusion

1 Table **OR** 1 image is allowed.

Poster preparation

All the abstract presenters, who received the acceptance email stating that “Your abstract has been accepted as poster display”, should upload an electronic poster as per the instructions below.

After you have been given the link for poster upload, please follow the instruction given below to prepare your electronic poster

Accepted file format for submission: .PDF

We recommend traditional vertical format (A4)

File size: we suggest a max 20 Mb

The format is most important than the absolute measure.

The maximum allowed size is 2.160 pixels x 3.840, with a minimum resolution of 72 dpi. The upload is limited to files having 20 Mb maximum, (we suggest A4 format)

One-page posters are mandatory.
